Methodology for Placement Rates

The following factors are used to determine the placement percentages:

PF/G=Placement %

PF=Number of graduates placed in field related to training

G=Number of Graduates available for placement (*Number of Graduates minus Unavailable graduates & Further Education*)

Unavailable=graduates falling into one of the following categories: death, incarceration, active military service deployment, the onset of a medical condition that prevents employment, or international students who have returned to their country of origin.

Further Education=graduates that are continuing education at an additional institution.
